

BLOpens

INSTRUCTIONS

GLITTER Super Activity Workshop

HOW TO USE BLOPENS

- 
- 1 The Blopens comes with the cartridge in a storage position.
- 
- 2 Remove the cartridge and place the marker inside the tip. Then, put the cap back.
- 
- 3 Point the Blopens and blow into the cap to spray the paper.
- 
- 4 Always place the Blopens cartridge back in its initial position when stored.
- 
- 5 Unscrew the cap of the glitter tube and place it inside the glitter holder. Push it strongly so that the top of the tube is at the same height as the top of the glitter holder. Slide the glitter holder on the tip of the Blopens.

STENCIL USER GUIDE

Before playing, ask an adult to press gently on the detachable parts of the stencils. Be careful, this part could be delicate.

Place the stencil on the area of the sheet where you want to draw.

Blow in your Blopens to color.

Gently remove the stencil to make your drawing appear.

HOW TO BUILD YOUR EASEL BOX

TIPS

Blow at a distance of at least 8 to 10 cm from the paper. Never put the tip or the ink cartridge in the mouth. Take breaks between each use. Rinse the tips, caps and the glitter holder between each use and let them dry for a few minutes. Non-rechargeable.

CREATION ASSEMBLY GUIDE

Choose a creation sheet and color your creation with the Blopens. Be careful not to remove the creation from the sheet.

Once your creation is colored, let the ink dry a few moments and then superimpose the corresponding stencil above to add new colorful details. You can add glue on all the spaces you want to spangle. Follow the shapes of the spencil with your glue pen as you wish.

Take the glitter type of your choice, remove the cap and place the tube into the glitter holder. Slide your glitter holder on the tip of a Blopen as shown on the part 4 of the guide. Aim parties with glue and press your glitter tube to sprinkle. Once you have finished using glitter, remove the tube from the glitter holder and recap it.

Take off your spencil, shake it over a bin to remove excess glitter and put it aside for later use.

Let dry for about 2 hours and then remove your creation of his board.

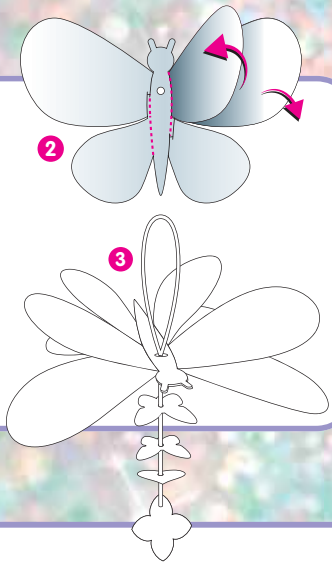

HOW TO BUILD THE BUTTERFLY MOBILE

Ask an adult to help you interlock both parts of your butterfly by sliding the slots on top and bottom.

Once built, fold the wings of your butterfly on each side to give it volume.

Slide the ribbon in the butterfly hole by making a loop then make 2 or 3 big knots under the butterfly. Add the small parts on the ribbon.

FLOWER ASSEMBLY

Follow the dotted line to lift and bend the petals of the flowers and give them volume.

USING AND CLEANING

Blopens may stain. We suggest wearing an apron and protecting your furniture and carpets. Stains on skin and fabric can be cleaned with soap. Avoid prewash products that may stain. For tougher stains fabric may have to soak overnight in soap and water. An additional washing may be necessary for the persistent stains. In order to avoid any discoloration, follow the instructions provided by the soap or detergent product manufacturer. Avoid chlorine, chemical cleaners and biological washing powders.

Message to parents: Prior to starting, carefully read the instructions with the child. You can also watch a video tutorial by scanning the QR code or by visiting the Lansay website at www.lansay.fr.

Warning!

Contains small parts. Choking hazard.

Please remove all plastic tags, ties, and any other protective elements which do not make up part of the toy, before giving it to the child. Please retain information for future reference. Colors and contents may vary from those shown. Do not aim for eyes and face. In case of contact with the eyes, rinse thoroughly with clear water and consult a doctor bringing the product with you. Should not be inhaled. Use only the glitter and glue on the drawings. Do not use glitter and glue on skin. Keep away from eyes. Wash hands well after use.
