Using and cleaning

Before starting, gently remove the detachable parts of the stencil (if necessary). Blow at a distance of at least 8 to 10 cm from the paper. Never put the tip or the ink cartridge in the mouth. Take breaks between each use. Rinse the tips as soon as you open the product and the tips and caps between each use. Let dry for a few moments. Non-rechargeable. Blopens may stain. We suggest wearing an apron and protecting your furniture and carpets. Stains on skin and fabric can be cleaned with soap. Avoid prewash products that may stain. For tougher stains fabric may have to soak overnight in soap and water. An additional washing may be necessary for the persistent stains. In order to avoid any discoloration, follow the instructions provided by the soap or detergent product manufacturer. Avoid chlorine, chemical cleaners and biological washing powders.

Warning!

Presence of long cord.
Strangulation hazard.
